HELMKE - Liquid Starter Technology

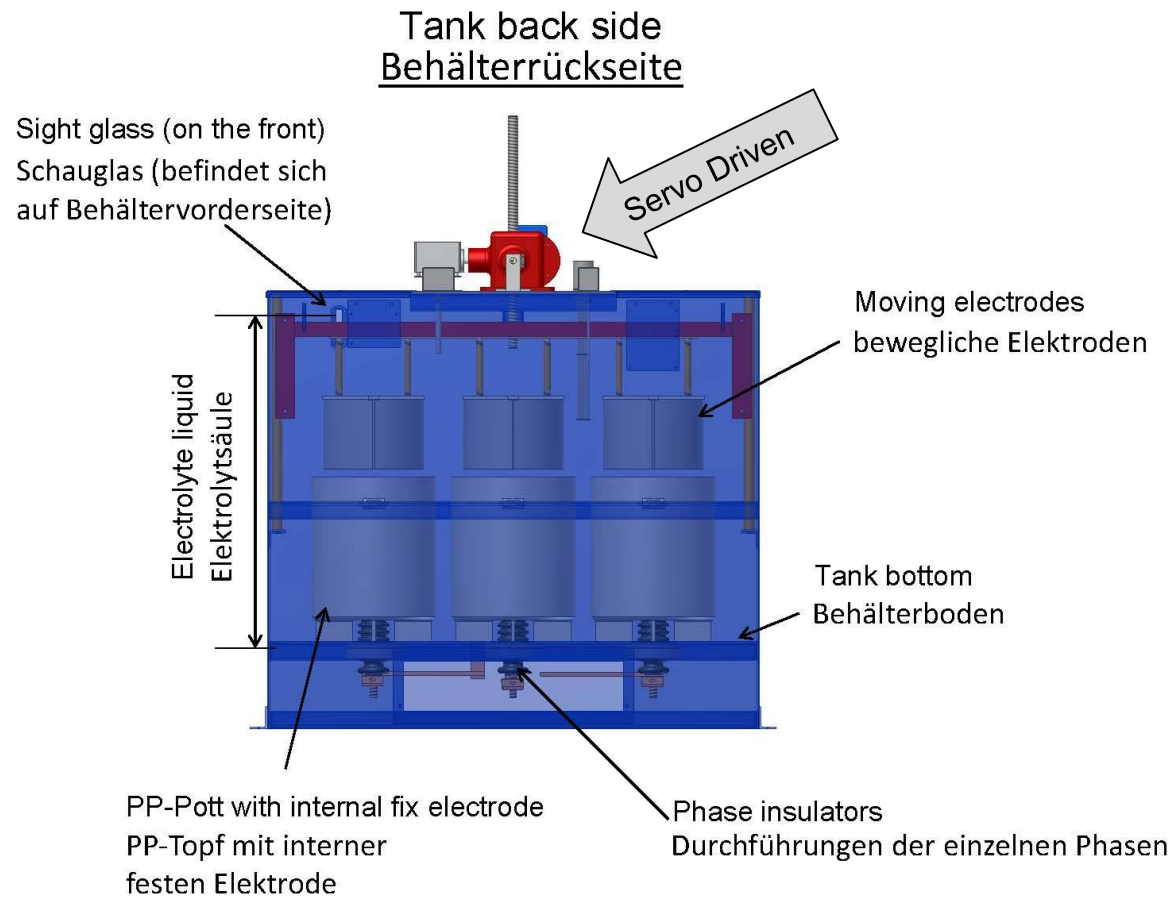

HELMKE Three-Phase Rheostat for constant current start and automatic slip control.

US Auto Shredder Industry:

Type: DFAS1860/1200A
1860 kW / 2500 HP,
replaced existing
rheostat of 2500 HP
Schorch motor.

HELMKE - Liquid Starter Technology

BENEFITS of HELMKE Three-Phase Rheostat :

1. Speedy and accurate SERVO driven electrode regulation increases productivity.
2. HELMKE In-House engineering and manufacturing.
3. Matches any existing motor installation (Schorch, WEG, Alstom, etc).
4. Shortest deliveries.
